

### FlexiGlide **Classic Chainlink** sliding folding security shutter

The Classic Chainlink is the most economical and light-weight of our sliding shutter range. It is an open style sliding folding grille. With a hanging weight of only 6 kilos per square metre, it is the best type of folding shutter to install on limited support structures.

A versatile sliding folding security shutter. Excellent solution in low security applications such as closing off an open plan restaurant when not in use.

- Very open look and feel
- Lightweight
- Cost-effective

#### Finishes

Available in clear anodised aluminium only

#### Weight

5.9 kg/square metre
